EXPERIENCE

Learning Ambassador | Amazon Fulfillment Services | Kitchener, Ontario, Canada

Jul 2023 - Present

- Streamlined new hire onboarding communications and training materials by reorganizing content in Microsoft Excel across 6-8 groups per peak season, improving process efficiency by 50-60% and cutting training delivery time by 1-2 days.
- Built and maintained pivot-table tracking systems to monitor training progress and communicate status updates across cross-functional teams, improving reporting accuracy and enabling employees to start their work schedules earlier.

Customer Service Associate | Amazon Development Centre India | Delhi, India

Aug 2022 - Feb 2023

- Investigated customer communication patterns across roughly 60 cases per day using case analysis and pattern-recognition techniques, reducing unwarranted refund losses by an estimated 85%.
- Partnered with policy and fraud teams to refine messaging and decision criteria for ambiguous cases, strengthening customer trust and protecting brand reputation and revenue at scale.

Office Assistant | Spektrumsafe Solutions India Pvt. Ltd. | Delhi, India

Jul 2019 - Aug 2022

- Organized and segmented a database of 90 client records daily using targeted qualification criteria, surfacing 100 high-quality leads per day to support business development and outreach efforts.
- Queried client databases using SQL to segment prospects by region and business type, enabling targeted outreach campaigns that achieved a 60-70% response rate and converted 15 immediate and 30 future customers.

MARKETING & ANALYTICS PROJECTS

Customer Funnel & Campaign Performance Analysis — Personal Portfolio Project | Remote, Canada

May 2026

- Analyzed 10,000 e-commerce customer sessions to diagnose a 70.95% checkout abandonment rate, identifying key drop-off points for marketing and UX intervention
- Built an interactive Tableau dashboard to visualize an estimated \$47K+ revenue opportunity, supporting data-driven marketing and channel investment decisions
- Segmented customer journeys by device, channel, and product category, revealing that organic traffic underperformed paid channels — informing recommendations on where marketing spend would have the highest return

Consumer Behavior & Market Segmentation Study — Personal Portfolio Project | Remote, Canada

Jun 2026

- Conducted market research and exploratory analysis on a 254-respondent shopping survey, uncovering that Tier 2 cities represent the largest underserved consumer segment (48%)
- Analyzed spend behavior and category preferences across demographic segments to inform targeted messaging, finding that 40% of shoppers prioritize price over brand and that Clothing and Electronics drive 52% of frequent purchases

Product Pricing & Market Positioning Analysis — Correlation One | Remote, Canada

Jun 2026

- Analyzed a 1,007-vehicle dataset to identify horsepower as the strongest driver of price positioning ($r=0.80$), informing competitive positioning insights, and published findings via an interactive Tableau Public dashboard
- Identified and corrected a data-entry error using calculated fields rather than deleting the row, preserving the accuracy of market insights for strategic decision-making

EDUCATION
